Thorson Writes Secretary Outlining Some of Needs on Home Front-Calls on Women to Continue to Maintain Price Ceiling—Asks For Harvesting by All Able to Assist—"Bone and Grease "ust be Salvaged", is Dictum.

Says Nutrition Very Important

Strong endorsation of the objectives and work of the Grimsby District Consolidated War Services Committee was forthcoming this week in the form of a letter from the Minister of National War Services, Hon. J. T. Thorson. In a letter addressed to Mrs. John Vooges, local secretary, Hon. Mr. Thorson makes some pointed observations regarding the home front generally.

Enclosed with his letter in a list of foodstuffs drawn up by the British Ministry of Foods as a guide to persons sending parcels overseas. He also mentions that Canadians seem to be becoming "nutrition minded", and that the health of the nation is "vitally imporant." He also calls upon every able-bodied individual of the district to assist in the harvesting of fruit this summer, remarking that Grimsby is situated in the heart of the fruit belt, and offers a real opportunity for citizens to do so.

Following is a copy of the letter received:

Dear Mrs. Vooges,

The Task Committed To The Disciples

Matthew 28:16-20; Mark 18:14-20 Luke 24:49-53. . . .

GOLDEN TEXT

Go ye into all the world an preach the gospel.-Mark 16:15.

Approach To The Lemon The great commission of risen Lord to His apostles, send

ing them forth to begin the evangelization of the world is not given in full in any one record, but all agree to this: while they were to begin in Jerusalem, they were to carry the message of salvation to the utmost limits of the world. The program as set forth by our Lord has never been modified or repealed. It still constitutes what the Iron Duke (Wellington) called church: orders which have now carried into nearly all world.

A Lesson Outline

The Lord's command-"Go ve (Matt. 28:19).

The sphere of testimony - "Al the world (Mark 16:15).

gospel" (Mark 16:15). The objects of grace - "Every creature" (Verse 15).

The obedience of faith - "Believeth and is baptized" (verse 16). The blessed result - "Shall be saved" (verse 16).

The dramatical atternative—"the be judged" (verse 16).

Application

we be indifferent to the crying ally was welcomed. need of the unconverted and unenlightened millions for Christ died as surely as for When Christians say, "I do not beliove in Missions", they are refusing subjection to the clearly ex-Josus Christ, and therefore are walking in disobedience.

Our Country, Right Or Wrong

It is not to be wendered at that non-detion is beginning to crowd friendly meeting, or a solved probfiction in popularity at our Library. I was fortunate enough to light The Central War Fund, to which upon, for this weak's reading, Persons, Papers and Things, a newspaper man's autobiography, the author,-Paul Billiev.

Piction is weak, flavouriess stuff compared with Mr. Bilkey's from Ontario Institutes, many of breesy narrative of his life and adventures from oub reporter on the which remit a set sum each month. Toronto Star in 1896 to Press Gallery correspondent at Ottawa to Editor-in-chief of The Montreal Genette. According to his own tale reporters were a bibulous lot, with a taste for what he delicately calls It was first used by Aristotle, the "emoking-cor" stories. He doesn't tell any in the book. He does, however, give an illuminating, if unedifying picture of parliamentarions and cabinet ministers of the last forty years. It's amazing that times called "arguing in a circle." the country has stood up under the colossal mismanagement and sel-To "beg the question" means to This kind of fallacy frequently oc- fishness of its appointed leaders. But before he finishes, Mr. Blikey assume as true what you are sup- curs in long arguments and in ver- clears their memory to some extent and puts the blame where it beposed to prove, and then proceed bose metaphysical writings. As longs, pointing out what he terms the two fundamental weaknesses of to argue from that point. For ex- the English writer on logic, Jevone, our political system. One, " a senseless extravagance in the bestown! ample, to say that parallel lines points out, it is an easy pitful for of the franchise, and the other a curious disposition of the people to will never meet because they are those who employ a mixture of foul their own nests by everlastingly maligning the men in whose parallel, is simply to assume as a Seven, Latin and Greek words in hands they have placed their business."

To group all the country's elected survants, those who have borne the heavy burden of administration, as mere "potticians," he says, and smear them with all the sinister implications of a misunderstood term will never be un effective means of lifting the standard of public life, of inducing abler and bolder men to seek election and accept public administrative responsibility. It is still true that the public gets what it cake for, and it always will be true.

Of what he calls "one of my favortie cheessions, namely, the looseness of the franchise," he has this we say: It should be unneceseary to refresh ourselves with the knowledge that this franchise was very duarty boug... by successive generations of our forebearers. The franchise should rank as a privilege of citizenship rather than right exercise's by people, men, women and children, who know nothing about cuisenship. The vote is given indiscriminately and has become a count of heads without regard to the rather important question as to whether the heads have anything in them beyond an amortment of natural lusts. A young man or a young woman of twenty-one years is not a qualified elector, the law to the contrary notwithstanding. The same law permits any number of irresponsible illiterates to mullify the votes of an equal number of the most highly qualified students or matters of politics I economy, or an equal number of men and women having large still a in the country, and having, therefore, a direct concern in the chas a cof the government. The law permits a criminal to vote upon an squality with a bishop, unless the criminal happens to be in durance vile when the voters' list is being compiled. We give the vote to the idler and the wastrel, to any idiot who is not actually confined in an asylum, and, under certain easy conditions, to newcomers in the country, men and women with no better background than generations of peasant igoroance. It may be good democracy, but it is not good common sense, and it accounts for the fact that we send to our parliaments at almost every election a group of representatives of whom a major proportion are affiliated with corebral obesity. But he goes on to my, the faults of this generation and its predecessors need not be repeated in the one now rising, into whose hands the offairs of the Domision must in due time be entrusted. The younger Canadians should be educated to the great task that lies before them, and it is still a sound principle to begin with them while they are YOURS.

Mr. Billiey has something here; something that will bear earment. thought, followed by intelligent action

Brought On Ourselves

FIGH what seems a substantial trial period, the In go erament has decided to introduce computsory sugar rationing, and according to the statement | money in this community. It will provide a nice fill from Ottaws which heraided this innovation, the machinery is all set up to place ration books in days" of mid-sur-mer. All in all, the plan is an exevery Canadian household. It is to be regretted cellent one which should be productive of even that Cantalans, who have been offered a comparatively straple and inexpensive method of securing an objective, falled to do so. Despite all their patriotic fervor, despite all their engerness to see the war won, they falled in their trust, and as a result the regulations which they would not accept freely have occupying the buildings are being prepared for in been piaced into force.

The same situation existed in the realm of seastine. Even with warnings that they would have to reduce their gas consumption or else be placed have been an easy spot to find from the air. Counton a ration, Canadian motorists actually increased less small communities sanning north, cast and their gracoline consumption by several millions of which could not be mistaken. It is high time these gallons per month. Even Ontario, which prides it- black-out practices were made more universal. self as a loyal section of the Dominies, burned up There is no point in Toronto being blacked out when

1942. In April of this year gasoline consumption shower a decrease of nineteen million galions over Marci. April, the first month in which gas rationing was in effect, would normally witness an increase in motoring due to roads becoming better and cars being brought out of their winter hibernation.

- In the fact of these facts, it would appear that our government has little reason to expect a proper and adequate acceptance of any discomfort, however alight, without resorting to regulations which carry a stiff prison term and fine for those caught contravening them. Canadia is can be persuaded to buy War Savings Certificates and Victory Bonds, make contributions to the wartime appeals of the Red Cross Bociety, and fill a really fine role on the home front. Money is more plentiful now than it was: time, unrecognized as a precious commodity, can always be used on patriotic endeavours with little loss to most people. But the third lump of sugar, the same quantity of gusoline, those things which money can buy, could not be given up even temporarily.

It is a curious thing that the people of this country, paying heavy taxes and loaning huge sum of money so that their country can buy those things it needs to prosecute the war, step out in competition to their country and make it impossible for the government to buy. There is only so much sugar available for the making of explosives, only so much gasoline can be shipped into Canada for the training of aviators and tank drivers and delivering of the tools of war from factory to rallway depot. Cane dians give their country the means of buying ther vital things, but seem to care little whether the res of their fellow countrymen individually gut enough and the children's Christmas party for their own private needs or, as a country, enough were again Yuletide features.

In the tight of this, the forthcoming rationing other household needs which might be scarce in th

Canada's Eyes Grimsbyward

the Grimeby District Consolidated War Service Committee from Hon. J. T. Thorson, and published elsewhere in this issue is but another manifestation of the fact that Canada is watching this community with more than ordinary interest. There have already appeared several items in the newspapers an periodicals of Canada regarding various phases of this community's many activities, and these all contribute not only toward making Grimsby better known as a community, but toward an encouragement of other communities.

Several points of the letter written by the Mir is that of collecting bones and grease. This metter has the close study of members of our efficient Salvage Committee, and doubtless as appoundement

That being the case, as it undoubtedly is, it is rather painful to read of this justly venerated dish being the center of a tempest in some of the southorn states. One confrere down there states that the future. strawberry shortcake made there, is, for the most part, a suggy affair, concected of pound cake the remarks which Mr. Thomas had to make about or sponge calte, the exact type of calte escapes us at the moment, and resembling just so much pap by one, brought to the fore among public problems the time it reaches the ultimate consumer. The con- through the large numbers of rejections which have strawberry shortcake should be a harder affair, for ada's armed forces. Malnutrition at any time is unfrom the way be describes it, the strawberries should economic, in times of national danger such as that be sandwicked between a couple of slabs of short- through which we are passing, it is perilous. It is

dislikes, but for the average hostess of this district subject, and explore all avenues in making available it must be said that the cake part of this delectable to the citizens of this district a thorough knowledge dish is fresh and dry, the juice kept down to a mini- of the potent benefits of proper nutrition. This mum, and the whipped cream applied just before work, if it can be successfully duried, would be serving. Sinking one's molars, or what are left of work well worth continuing at the close of how. them, into this set-up is productive of a semestion ties. which cannot be described.

Can you, in all honesty, imagine sinking your, teeth into two slabs of shorthread? Can't you just imagine how the strawberries should be crushed before they entered your oral cavity, instead of going in whole? And don't you agree that in this situation the whipped cream would be just as goosy nuisance which would have to be wiped off your

chin? No, strawberry shortcake as it is being served in this district at the present time is just about all we could desire, unless—did you may you had anothor piece? Yes please, and we'll hold our fork so it wen't be in your way.

Brought On Ourselves

PTER what seems a substantial trial period, the I'm government has decided to introduce compulcory sugar rationing, and according to the statement from Ottawa which heralded this innovation, the associatory is all set up to place ration books in every canadian household. It is to be regrested that Canadians, who have been offered a comparatively simple and inexpensive method of securing an objective, falled to do so. Despite all their patriotic fervor, despite all their engerness to see the war won, they falled in their trust, and as a result the regulations which they would not accept freely have

been placed into force. The same situation existed in the realm of gasotine. Even with warnings that they would have to reduce their gas consumption or else be placed have been an easy spot to find from the air. Counton a ration. Canadian motorists actually increased their gasoline consumption by several millions of gallons per month. Even Ontario, which prides itself as a loyal section of the Dominion, burned up several millions of gallons of gasoline more during airmen over that city can get their bearings from the first three months of this year than it did in

1942. In April of this year gasoline consumption showed a decrease of nineteen million gallons over March, April, the first month in which gue rationing was in effect, would normally witness an in crease in motoring due to roads becoming better and care being brought out of their winter hibernation.

- In the fact of these facts, it would appear that goodly amount of cash. our government has little reason to expect a proper and adequate acceptance of any discomfort, however slight, without resorting to regulations which carry a stiff prison term and fine for those caught contravening them. Canadians can be persuaded to buy War Savings Certificates and Victory Bonds, make contributions to the wartime appeals of the Red Cross Society, and fill a really fine role on the home front. Money is more pientiful now than it was; time, unrecognized as a precious commodity, can always be used on patriotic endeavours with little loss to most people. But the third lump of sugar, the same quantity of gasoline, those things which money can buy, could not be given up even temporarity.

It is a curious thing that the people of thi country, paying heavy taxes and loaning huge sums of money so that their country can buy those things it needs to prosecute the war, step out in competition to their country and make it impossible for the government to buy. There is only so much sugar available for the making of explosives, only so much gasoline can be shipped into Canada for the training of aviators and tank drivers and delivering of the tools of war from factory to railway depot. Canadians give their country the means of buying these vital things, but seem to care little whether the resi of their fellow countrymen individually get enough for their own private needs or, as a country, enough to properly fight the war.

In the light of this, the forthcoming rationing should be extended to include tes, coffee, and all the other household needs which might be source in the future. We have had too many multi-million visitations of one sort and another.

Canada's Eyes Grimsbyward

PERE letter recently received by the secretary of the Grimsby District Consolidated War Services Committee from Hop. J. T. Thorson, and publishe elsewhere in this issue is but another manifestation of the fact that Canada is watching this community with more than ordinary interest. There have already appeared several items in the newspapers and periodicals of Canada regarding various phases of this community's many activities, and these all contribute not only toward making Grimsby better known as a community, but toward an encourage-

A Welcouse Innovation

THE Grimsky Lions Club is to be commended for I its choice of prises which are to be offered at its carnival next month. Gone are the frills and docdads which helped make this country one of the most wasteful on earth. In their place we find soal, and ment and groceries and clothing, things which all need, and things which thoust , . s long way toward reducing the living coats of plate a few people. And, with the prises calling for specific amounts instand of pre-chosen stems, the winners can be sure of guiding things they need rather than being handrd something which is unappreciated. The winner of a coul voucher, for instance, can choose his coal to suit his furnace. If he lives in an apartment, he onn take War Savings Certificates instead.

The plan is also one which will tend to heep money in this community. Il will provide a nice fill up to local sucrehents during the so-called "dog days" of mid-summer. All in all, the plan is an excellent one which should be productive of even greater carnival crowds than in the past,

NOTES AND COMMENTS

There is to be no Capadian National Exhibition at Teronto this year, but the abow for which those occupying the buildings are being prepared for is much more important.

Toronto, all blacked out the other night, would less small communities running north, east and which could not be mistaken. It is high time there black-out practices were made more universal. There is no point in Toronto being blacked out when docume of others communities even as far away as St. Catharinet.

Palatine Hill

Many Grimsby people have visited Palatine Hill, in Niagara township, said to be the oldest house Ontario, and built in 1792, though part of the house, once us ed as a store, dates back 9 years earlier.

Butler's Rangero, who died in whole of Ontario.

Palatine Hill was so named from Palatine-on-the-Hudson, where the Dutch family of Servos first settled Sew-We-Knit Club Entertained Palatine-on-the-Hudson, where the in the New World.

Mrs. Stider had filled her house ark. Her grandfather operated the Street. first grist-mill in the county, and On Friday afternoon, June 26th, the wooden grain shovels.

A memento of the battle of Stoney Creek,-the box of an ammunition wagon left behind by the departing Americans,-was one of her treasures. There were cannonballs, dating back to the war of 1812, muzzle loaders 200 years old, and many Indian relics. Her grandmother, when a young woman, was riding along the Hudson near her home when she sighted a band of Indians. Quickly turning the horse into the river, she swam him across to the other side and into safety. The saddle is still in existence, and it is more than likely that the lady rode on it when journeying to Canada to make a new home after the War of Independence.

Five generations of Servoses rest in the family burying ground on Palatine Hill Farm, which was a crown grant to Captain Daniel Servos.

HAPPY MONTHS FOR DOGS

Hints For Summer

By PHILOKUON

If dogs were capable of expressing an opinion there is not much doubt that a tremendous majority would vote that the early summer was the pleasantest time of the year for them. The period between the middle of spring and really hot days is better than any. They can usually be outside for most of the day, and exercise can be taken without the discomfort that comes when the temperature is high. They do not need quite as heavy meals now as when loss of heat has to be counteracted by a bigger intake, and green or root vegetables may be added more freely. A little dusting of powdered sulphur on the food occasionally will not do any harm, and should a laxutive be necessary enoun suits are as good as anything.

The problem at the present noment is how to expedite the anmusl mount so that the suisance of loose hairs all over the place may be minimised. Extra grooming is as helpful as anything, especially If a fine-toothed steel comb is used for the purpose of getting away all hair that to ready to fall: Where the dead cost is left in a dog will scratch, giving the impression that he is affected with fless or incipient ecnema. Pluck out with finger and thumb all the dead hair that will come away. It! is surprising how much can be removed painlessly in this way, and it hastens matters considerably. A course of linesed oil in the food, given two or three times a week. will help the growth of new hair and put a gloss upon it. A dessertspoonful is about the correct quantity for breeds the size of pocker spaniels, the amount being personed or decreased proportionately for others.

A both also should expedite matters, but nothing can best a vigorerous grooming every morning eneticial. Wire-haired terriers look all the smarter if they are triumed three times a year. If the operation is done soon it should last a good part of the summar. I am not an advocate of give meen some that have her worried to pieces with flies when the long coat has not been there for their protection. The shedding of the winter cost is nature's method of affording relief through Tartarians and earlier varieties. the summer. As dogs do not perspire through the skin many peothrough the evaporation of moi ture frech the lungs.

Pekingese and other breeds, from profusion of cost, owe this growth of hair to several factors. one of which probably is heredity, some strains being superior to oth- magget: ers. Plenty of nourishment, regular grooming, keeping them free he recommended. After all is said care all the time is preparation for as well as the upper sides of the their method of moulting. ASKING ARMY WEEK OBSERVANCE

BINISTER OF BATTONIA DEFENCE

To the Citizens of Canada.

OTTAKA.

It has been decided to mark the period from June 29th to July 5th, 1942, as "Army Week". The purpose is to give the people of Canada an opportunity of expressing their pride in the Canadian Army and honouring the Gentleman in Battledress, the Mursing Sisters and the Members

of the Canadian Women's Army Corps.

During Army Week, citizens will have an unusual opportunity of seeing the Army at work. Each day has been set aside for some specific purpose. Monday, June 29th, for instance, has been made "Soldier's Day" when the public will be invited to send gifts and parcels to the men overseas and when they can entertain the men at dances and other special entertainments. The next day, June 30th, is "Civilians' Day". when civilians will be daked to prepare meals on a food retion system and restaurents will serve meals identical to those served to Canadian soldiers. On Dominion Day there will be garrison parades and special military demonstrations. The nd, 3rd and 4th of July will equally be devoted to enabling Lunadians to learn at first hand various phases of Army activities.

Army Week will wind up on Sunday, July 5th, when the public will be invited to attend church services in Army camps and barracks, and special prayers will be offered for the members of the Armed Forces. On that day, camps will be open to the public and demonstrations and displays of barracks and comps will be arranged.

As Minister of Mational Defence, I am intensely proud of the man and women in khaki and of the women in Nursing Service blue who are serving Canada. I am sure that my fellow Canadians feel just as I do. I extend a most cordial invitation to all of you to express this well deserved appreciation by joining in the events of Army Week.

Yours very truly.
